

Professional Licensure Disclosures

The information below is intended to help prospective and current students determine whether the following programs lead to professional licensure in each state. Even if a program does not lead to licensure in your state, it may still be possible to obtain licensure via reciprocity with New Mexico. If a program is listed as “Not Determined,” it is recommended that you contact the appropriate licensing agency. Licensure information is collected and updated annually. Please contact the person below if you have any questions about professional licensure.
